92 9MM LUGER POLISHED STAINLESS

With its drop hammer forged, ordnance-grade alloy frame, the Taurus 92 is an innovative and reliable semiautomatic pistol that's built to last. The 92 features a three-position, frame-mounted ambidextrous safety that is more secure than a slide-mounted safety-allowing for a classic "cocked and locked" mode as well as a functioning DA decocking lever.

G3 9MM LUGER TAN

The G3 continues the proven polymer-frame profile now in a full-frame configuration, with generous stippling patches across the grip for maximum control and retention in any shooting condition, an ergonomic palm swell and side-frame Memory Pads that provide quick, positive hand positioning. The frame has an integrated Picatinny rail. A manual safety and slide release lever are optimally positioned above the thumb for easy manipulation. A refined element of the G3 is the 6-lb. trigger, designed with a smooth take-up and a surprisingly crisp, clean break exceeding that of typical striker-fired pistol trigger performance. A short reset promotes quick, controlled follow-up shots.
